Introductory Section

December 26, 2006

Honorable Gordon F. Joseloff, First Selectman
Shelly A. Kassen, Selectman
Robert F. Lasprogato, Selectman
Members of the Representative Town Meeting
Members of the Board of Finance
Citizens of the Town of Westport, Connecticut

State law requires that all general purpose local governments publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2006.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

McGladrey & Pullen, LLP, Certified Public Accountants, have issued an unqualified (“clean”) opinion on the Town of Westport, Connecticut’s financial statements for the year ended June 30, 2006. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A is intended to complement this letter and should be read in conjunction with it.

Profile of the Government

The Town, incorporated in 1835, located in southwestern Connecticut, is annexed from Fairfield on the east, Weston on the north, and Norwalk on the west. The Town of Westport occupies approximately 22 square miles, located in Fairfield County, with a 2000 Census population of

25,749. The Town is empowered to levy a property tax on both real and personal properties located within its boundaries.

The Town operates under and is governed by the laws of the State of Connecticut and its own charter which was adopted by the State Legislature in 1957. The Charter provides for a Board of Selectmen - Representative Town Meeting form of government. The First Selectman/woman, elected to a four-year term, is the chief executive officer of the Town. The First Selectman is responsible for carrying out the policies and ordinances of the Representative Town Meeting (RTM), for overseeing the day-to-day operations of the Town and appointing the heads of various departments and commissions. The RTM, which acts as the Town's policy making and legislative body, consists of thirty six (36) members elected to two-year terms. The RTM is responsible for passing ordinances, adopting the budget, ratifying labor agreements, bonding authorizations and supplemental appropriations. The last election in the Town occurred in November 2005. A major revision to the Town's Charter was presented and approved by the voters in November 2000.

The Town provides a full range of services to its citizens. These include: police and fire protection; construction and maintenance of streets and other infrastructure; sewer and sanitation; education; library; public works (highways, streets, waste disposal, engineering and infrastructure maintenance); parks and recreation (parks, beaches, golf course and tennis courts); cultural events, senior services and organizations; health and welfare; and general administrative services.

The annual budget serves as the foundation for the Town's financial planning and control. All departments of the Town are required to submit revenue estimates and requests for appropriations to the Finance Director. The Finance Director, First Selectman, and budget requesting agency review these requests and develop a budget which, along with the Board of Education budget, will be presented to the Board of Finance. The Board of Finance, with at least one public hearing, will review the requested budgets and make any reductions they deem advisable. The Board of Finance will hold at least one public meeting prior to adopting a recommended budget which will be submitted to the Representative Town Meeting. On the first Tuesday in May, the Representative Town Meeting adopts the budget for the fiscal year beginning July 1.

The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police). All budgetary transfers are submitted to the Board of Finance for approval. The Board of Finance may grant additional appropriations to departments up to an accumulated total of \$20,000 per fiscal year; Representative Town Meeting approval is required for departmental appropriations in excess of \$20,000. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on pages 18 and 61-65 as a part of the basic financial statements for the governmental funds. For the sewer operating fund, a major fund with an appropriated annual budget, this comparison is included on pages 19 and 80.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

Local Economy. Westport was once an artist colony. Now it has among its residents many in other fields of the arts as well – theater, publishing, television. Although it is a community with almost no industry, there are several corporate headquarters, many consulting, marketing, promotional, investment firms, commercial designers and graphic artists. While Westport is often thought of as a commuter community, increasingly its residents work in the area as corporations have moved into Fairfield County. The Town unemployment rate, based on the Connecticut Department of Labor, as of June 30, 2006 was 3.4% compared to Fairfield county and the State respectively of 4.0% and 4.4%. Bureau of Census data for the 2000 census identifies Median Family Income in Westport of \$152,894. In addition, residential housing values within the Town have risen by 48.2% from the 1990 census data from \$422,400 to \$625,800 based on U.S. Bureau of the Census data.

Long-Term Financial Planning. As a part of the annual budget process, the First Selectman prepares and presents a five year capital plan. This plan identifies costs and financing methods for those capital projects that the Town anticipates funding over the next five years. The current five year capital plan projects needs through fiscal year 2010. The plan provides for the needs not only of the general government but also the Board of Education and addresses such issues as infrastructure, major equipment replacement, educational facilities, public safety, recreation and open space. This plan projects total project costs over the five year period of approximately \$68,417,000. Financing, net of state and federal project grants, for these projects by debt issuance approximates \$48,067,000, while an additional \$15,220,000 is scheduled to be funded through annual appropriation in the General Fund, Sewer Fund user fees or Capital and Non-Recurring Fund. Bonding, net of grants, for the renovation and update of the Water Pollution Control Facility in the amount of \$29,700,000 to meet the DEP and EPA requirements is planned over the next two (2) years. The renovation phase of the project began in 2005 and is anticipated to be complete during fiscal year 2008.

Other major projects to be bonded, net of grants, in the plan include: completion of high school renovations (\$2,000,000), Saugatuck Shores, Ridgewood Lane sewers (\$6,000,000), recreational facilities improvement (\$5,100,000) and various sewer, public safety and land acquisition projects.

The financial impact of these initiatives is reviewed by the Board of Finance, Representative Town Meeting and management on an ongoing basis through the use of a Budget Planning Model. The model is used to project the tax consequences associated with funding the annual budget projections and capital expenditures over a ten year period. The model enables Town administration and the general public to view various scenarios for projecting the impact of operating expenditures and capital projects by utilizing various budgetary assumptions which include debt service, projected annual growth in operating revenues and expenditures, use of undesignated fund balance, tax collection rates and grand list growth.

Risk Management. The Town's risk management objective is to provide a safe environment for both employees and members of the public who utilize the services and facilities of the Town. Various insurance carriers cover major risks, and an outside professional continually reviews risks and coverages. All insurance coverages are adjusted accordingly based on this review of risk. Ongoing efforts are directed at preventing accidents and controlling exposure and financial loss by use of outside safety consultants to review losses and develop safety programs and facilities inspection analyses for the Town safety committees.

The Town has a self-insured workers compensation insurance program through the Connecticut Interlocal Risk Management Agency (CIRMA) with stop-loss coverage for claims in excess of the determined aggregate limits; the Town is fully reserved for loss within the stop loss limits. CIRMA is a nonprofit, tax-exempt association of Connecticut municipalities and local public agencies. Its purpose is to establish and administer an interlocal risk management program pursuant to the Connecticut General Statutes.

The Town is fully insured through commercial insurance companies for various risks of loss related to property damage and liability with minor funded deductibles.

The Town and Board of Education are self-insured for employee health claims through two Medical Self-Insurance Funds. The Town and Board of Education also purchase stop-loss coverage for health claims in excess of determined individual and aggregate limits.

Pension and Post Employment Benefits. The Town has five (5) contributory pension plans covering substantially all employees who work over 20 hours per week, except teachers. The teachers participate in a contributory retirement plan administered by the Connecticut State Teachers' Retirement Board. The Board of Education does not contribute to the plan.

The total pension payments to retirees, widows and beneficiaries for 2005-2006 was \$6,200,202. In addition the Town pays approximately \$39,210 of pay-as-you-go pension payments to five (5) retirees, under a retirement program established prior to the current funded programs. Participation in this program is no longer available.

As of June 30, 2006, the fair market value of the Master Trust for assets in these five (5) pension funds was \$170,195,737, an increase of \$5,405,239 or 3.3%. Income, including unrealized gains, from investments for 2005-2006 was \$9,581,016 or an approximate 5.72% rate of return.

The investment of each of the five Pension Trust funds is carried out by the "Investment Committee" (consisting of the Chair of the Board of Finance, the Finance Director and a third person chosen by the two and approved by each pension board of the various pension funds). The Investment Committee makes investment decisions based on the guidelines of the investment policy established by the pension board of each of the pension funds.

The pension boards have adopted an investment policy, which allocates up to fifty-five percent (55%) of fund assets to equities with the balance invested in fixed income securities and cash equivalents. For a description of the Town's Pension Plan, see Note 11 of the basic financial statements.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Westport for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the fifth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the Finance Department. I would like to express my appreciation to all the members of the Department who assisted and contributed to its preparation and our auditors McGladrey & Pullen, LLP. I would also like to thank the Board of Selectmen, Board of Finance and the Representative Town Meeting for their interest and support in planning and conducting the financial operations of the Town in a fiscally responsible and progressive manner.

Respectfully submitted,

Donald J. Miklus
Finance Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Town of Westport
Connecticut

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2005

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Honorable First Selectwoman and
Members of the Board of Finance
Town of Westport, Connecticut

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Westport, Connecticut, as of and for the year ended June 30, 2006, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Westport's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Investment Fund of the Westport Library Association, Inc., a component unit of the Town, which financial statements reflect total assets of \$3,198,465 and total revenues of \$5,294,923 of the component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion on the financial statements, insofar as it relates to amounts included for the Investment Fund of the Westport Library Association, Inc., a discretely presented component unit of the Town, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Investment Fund of the Westport Library Association, Inc. were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Westport, Connecticut, as of June 30, 2006, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the Sewer Operating Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with "Government Auditing Standards," we have also issued our report dated November 22, 2006 on our consideration of the Town of Westport, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with "Government Auditing Standards" and should be considered in assessing the results of our audit.

The management discussion and analysis on pages 3 through 12 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, budgetary detail, combining and individual nonmajor fund statements, capital asset schedules and other schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary detail, combining and individual nonmajor fund statements, capital asset schedules and other schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

McGladrey & Pullen, LLP

New Haven, Connecticut
November 22, 2006

TOWN OF WESTPORT, CONNECTICUT
Management's Discussion and Analysis
June 30, 2006
(In Thousands)

As management of the Town of Westport, Connecticut (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-v of this report as well as the Town's basic financial statements that follow this section. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights – Primary Government

The Town's net assets increased as a result of this year's operations. The assets of the Town of Westport exceeded its liabilities at the close of the most recent fiscal year by \$189,104 (net assets). Of this amount, \$43,258 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.

The Town's total net assets increased by \$14,264. As of the close of the current fiscal year, the Town of Westport's governmental funds reported combined ending fund balances of \$23,566. Management has committed to the electorate the maintenance of a minimum undesignated fund balance equal to 5% of the annual budget.

As of the end of the current fiscal year, unreserved/undesignated fund balance for the General Fund was \$11,890, a decrease of 7.6% from the prior year. The key factor to this decrease is usage of \$3,000 fund balance in the fiscal year 2006-2007 budget. This unreserved/undesignated fund balance at June 30, 2006 is approximately 8.1% of general fund expenditures.

The Town's total bonded debt increased by \$1,435 during the current fiscal year due to issuance of bonds in the amount of \$11,705 to finance capital projects less scheduled amortization of \$10,270.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, highways and streets, solid waste disposal, human services, cultural and recreation activities. Although the Town maintains no business-type activities, the Town does maintain three internal service funds which consist of the Town Health Insurance Fund, the Board of Education Health Insurance Fund and the Worker's Compensation Fund.

The government-wide financial statements include not only the Town itself (known as the primary government), but also a legally separate Westport Library Association, Inc. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. These activities are incorporated into governmental activities in the government-wide financial statements.

The government-wide financial statements can be found on pages 13-14 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Westport, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Westport maintains twenty-nine (29) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Sewer Operating Fund and the Municipal Improvement Fund Phase II. Fifteen (15) special revenue funds, ten (10) capital project funds and one (1) debt service fund are combined into

aggregate funds in this presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Town adopts an annual appropriated budget for its general fund and the sewer operating fund. A budgetary comparison statement has been provided for the general fund and the sewer operating fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 15-16 of this report.

Proprietary funds. The Town maintains three (3) proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Town's various functions. The Town uses internal service funds to account for its Town Health Insurance, Board of Education Medical Insurance and Worker's Compensation claims. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Town and Board of Education Health Insurance Funds and Worker's Compensation Fund of the Town. Conversely, these internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 20-22 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Town of Westport's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 23-24 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-60 of this report.

The notes to this report also contain certain information concerning the Town's progress in funding its obligation to provide benefits to its employees.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Westport, assets exceeded liabilities by \$189,104 at the close of the most recent fiscal year. This is an increase of \$14,264 from the previous year.

TOWN OF WESTPORT, CONNECTICUT

NET ASSETS

June 30, 2006 and 2005

	Governmental Activities	
	2006	2005
Current and Other Assets	\$ 73,503	\$ 78,739
Capital Assets	322,966	292,589
Total Assets	396,469	371,328
Long-Term Liabilities	180,669	179,576
Other Liabilities	26,696	16,912
Total Liabilities	207,365	196,488
Net assets:		
Invested in capital assets, net of related debt	145,846	116,904
Unrestricted	43,258	57,936
Total Net Assets	\$ 189,104	\$ 174,840

By far the largest portion of the Town's net assets (81.5%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The increase in capital assets is primarily related to renovation costs of the Water Pollution Control Facility (Public Works) of \$13,625 and school building renovations (Education) of \$16,969. Deletions of capital assets totaled \$362.

The remaining balance of unrestricted net assets of \$43,258 may be used to meet the government's ongoing obligations to citizens and creditors. This compares with last year's total unrestricted net assets of \$57,936.

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net assets, both for the Town as a whole, as well as for its separate governmental activities. The same situation held true for the prior fiscal year.

Governmental activities. Governmental activities increased the Town's net assets by \$14,264, thereby accounting for a 8.2 percent growth. The increase of \$14,264 of net assets is \$4,771 greater than the previous year increase of \$9,493.

**TOWN OF WESTPORT, CONNECTICUT
CHANGES IN NET ASSETS
Years Ended June 30, 2006 and 2005**

	2006	2005
Revenues:		
Charges for services	\$ 21,950	\$ 18,329
Operating grants and contributions	3,259	3,062
Capital grants and contributions	6,756	5,571
General Revenues:		
Property taxes	131,736	123,861
Grants and contributions not restricted to specific programs	1,972	2,277
Other	1,457	1,619
Total Revenues	167,130	154,719
Expenses:		
General Government	9,578	10,578
Public Safety	18,218	17,794
Public Works	14,434	13,527
Health and Human Services	1,826	1,655
Library	3,774	3,652
Education	98,380	91,604
Parks and Recreation	4,946	4,884
Debt Service	1,710	1,532
Total Expenses	152,866	145,226
Increase in net assets	14,264	9,493
Net Assets, beginning	174,840	165,347
Net Assets, ending	\$ 189,104	\$ 174,840

Key elements of this increase are as follows:

Seventy-nine percent (79%) of the revenues of the Town were derived from property taxes, followed by nineteen percent (19%) from program revenues, then two percent (2%) from grants and contributions, investment earnings and other sources.

Major revenue factors included:

- ◆ Property tax revenues recorded for the fiscal year 2006 reflect an increase in the Town's tax rate of approximately 3.4% and growth in the total assessed value of taxable property of 3.1%.

- ◆ Governmental Fund investment earnings decreased to \$1,278 in the fiscal year from \$1,535 in the prior fiscal year due to less available cash for investment in the Capital Projects Funds.
- ◆ Revenue from intergovernmental revenue increased from the prior fiscal year by almost \$2,324 or 29.6% due to additional state aid for school and Town construction projects.
- ◆ Licenses, permits and fees increased by over \$1,603 from the prior fiscal year, primarily due to increased building permit fees and conveyance taxes.

For Governmental Activities, 67% of the Town's expenses relate to education and library, 12% relate to public safety, health and welfare, more than 9% relate to public works/operations, 3% to Parks and Recreation activities, 1% to interest payments on long term debt and the remaining 8% relates to government and community services, administration and other areas.

Major expense factors include:

- ◆ Increases in employee wages averaged approximately 4.2%, resulting from negotiated step and general wage increases.
- ◆ Employee benefit costs rose by more than 12% due to rising health insurance costs.
- ◆ The cost of education services increased, due to negotiated wage settlements, employee health insurance cost, special education cost, and rising school enrollment.
- ◆ Debt service on school construction and renovations increased by 12%.

Expenses and Program Revenues – Government-Wide Activities

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. Noteworthy exceptions, however, were the Town's insurance costs, education, public safety and debt service budgets as noted above. Medical insurance costs have increased by more than approximately \$735 due to use experience and general market conditions. The growth in the student population of 44.1% over the last ten years, has resulted in continued significant adjustments to the Board of Education operating budget, 7.4% in fiscal 2005-2006. This growth in the student population has required major renovation to the Town's educational facilities. School renovation costs bonded in the last eight years have totaled \$155,934. Major renovations of all facilities will be complete following the conclusion of Staples High School's renovations.

Business-type activities. The Town does not maintain any business- type activities at the present time.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may

serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$23,566, a decrease from \$39,773 as of June 30, 2005. This decrease is due to reduction of balances in capital projects funds as school building projects are completed.

General fund. At the end of the current fiscal year, unreserved/undesignated fund balance of the general fund was \$11,890 (compared to \$12,870 in the prior year), while total fund balance reached \$18,677. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved/undesignated fund balance represents 8.1% of total general fund expenditures, while total fund balance represents 12.7% of that same amount.

The unreserved/undesignated fund balance of the Town's general fund decreased by \$980 during the current fiscal year. The key factor in this decrease is that the Town has applied \$3,000 of fund balance to the budget for fiscal year 2006-2007, after having revenue exceed expenditures by \$994 for fiscal 2005-2006.

Sewer operating fund. The fund balance has increased by nearly \$308 due to assessments levied and collected on completed sewer extensions and sewer system renovations.

Municipal Improvements Fund Phase II. Expenditures in this fund were \$17,036 for the 2005-2006 year. This is due to the use of this fund to finance a major renovation for the Town's Water Pollution Control Facility. Financing for this \$37,700 project will be a combination of bonding, State grants and State loans to the Town.

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget was \$1,521 and can be briefly summarized as follows:

- ◆ \$79 in legal fees.
- ◆ \$126 in snow removal costs.
- ◆ \$226 in public works contract settlements.
- ◆ \$152 in increases allocated to the Board of Education for accounting reclassifications of revenues.
- ◆ \$431 in police and fire heart and hypertension settlements.
- ◆ \$119 in capital equipment.
- ◆ \$171 in net increases allocated to all other budgetary departments.
- ◆ \$187 in municipal employee contract settlement.
- ◆ \$30 in election primaries.

Of this increase, \$152 was to be funded out of miscellaneous increases in various charges for services. The remaining \$1,369 was to be budgeted from available fund balance. During the year, however, revenues exceeded budgetary estimates and expenditures were less than budgetary estimates, thus eliminating the need to draw upon existing fund balance.

Capital Asset and Debt Administration

Capital assets. The Town's investment in capital assets for its governmental activities as of June 30, 2006, amounts to \$322,966 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges.

Major capital asset events during the current fiscal year included the following:

- ◆ Construction continued on the renovations to Staples High School at a cost of \$16,845; \$2,873 Police and Fire communications upgrade; \$1,018 golf course improvements; sewer extension and design projects and street drainage were completed at a cost of \$117; construction in progress at the end of the fiscal year had reached \$130,556, all inclusive.
- ◆ Various building and system improvements and studies were completed in the Water Pollution Control Facility at a cost of \$13,625.

TOWN OF WESTPORT, CONNECTICUT CAPITAL ASSETS (Net of Depreciation)

	Governmental Activities	
	2006	2005
Land	\$ 32,385	\$ 32,385
Buildings and system	157,221	95,980
Improvements other than buildings	10,440	5,485
Machinery and equipment	25,281	8,453
Infrastructure	94,039	55,122
Construction in Progress	130,556	95,164
Total	\$ 449,922	\$ 292,589

Additional information on the Town's capital assets can be found on page 42 of this report.

Long-term debt. At the end of the current fiscal year, the Town had total bonded debt outstanding of \$177,120. Of this amount, \$169,107 comprises debt backed by the full faith and credit of the government, and \$8,013 is public improvement debt for which the government is liable in the event of default by the property owners subject to the assessment.

**TOWN OF WESTPORT, CONNECTICUT
CONNECTICUT OUTSTANDING DEBT
GENERAL OBLIGATION BONDS**

	Governmental Activities	
	2006	2005
General obligation bonds	\$ 169,107	\$ 167,237
Public improvement bonds with government commitment	8,013	8,448
Total	\$ 177,120	\$ 175,685

The Town's total debt increased by \$1,435 net of scheduled amortization during the current fiscal year due to issuance of \$11,705 General Obligation Bonds. The government issued \$750 in Bond Anticipation Notes. This note will be used to fund the cost of athletic fields in the Town. In addition, the Town has received funding for the upgrade of the Water Pollution Control Facility from the State of Connecticut in the amount of \$13,464. Upon completion of the project, permanent financing will be arranged with the State with a twenty year amortization schedule.

The Town maintains a "AAA" rating from Moody's Investors Service.

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times its annual tax collections. The current debt limitation for the Town is \$894,389, which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found on pages 43-47 of this report.

The Town utilizes a budget model to project the tax consequences associated with funding the annual budget projections and capital expenditures over a ten year period. The model enables Town administration and the general public to view various scenarios for projecting the impact of operating expenditures and capital projects by utilizing various budgetary assumptions which include debt service, projected annual growth in operating revenues and expenditures, use of undesignated fund balance, tax collection rates and grand list growth.

Economic Factors and Next Year's Budgets and Rates

- ◆ The unemployment rate for the Town as of June 30, 2006 is 2.4 percent and compares favorably to the State's average unemployment rate of 3.8 percent and the Fairfield County Labor Market of 3.4 percent.
- ◆ Primarily a residential community, the Town has continued to enjoy favorable Grand List growth of more than 3.1%.
- ◆ Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the Town of Westport's annual budget.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 110 Myrtle Avenue, Westport, CT 06880.

TOWN OF WESTPORT, CONNECTICUT

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES (DEFICITS) OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES**

For the Year Ended June 30, 2006

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – total governmental funds	\$ (16,207,068)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation and losses on asset disposals in the current period.	30,377,708
Changes in revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	918,332
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(1,435,000)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	882,601
The change in net assets in governmental activities of internal service funds is reported with governmental activities.	<u>(272,112)</u>
Change in net assets of governmental activities	<u>\$ 14,264,461</u>

The notes to the financial statements are an integral part of this statement.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

Note 1. Significant Accounting Policies

Reporting entity

The Town of Westport, Connecticut (the "Town") was incorporated as a town in 1835. The Town operates under a Board of Selectmen, Representative Town Meeting, and Board of Finance form of government and provides a full range of services including public safety, roads, sanitation, health, social services, culture and recreation, education, planning, zoning, and general administrative services to its residents. The accompanying financial statements conform to accounting principles generally accepted in the United States of America as applicable to governments.

Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in Government Accounting Standards Board Codification Section 2100 have been considered and as a result, the component unit discussed below is included in the Town's reporting entity because of its operational significance and financial relationship with the Town.

Discretely presented component unit

The component unit column in the government-wide financial statements includes financial data of the Town's component unit. This unit is reported in a separate column to emphasize that it is legally separate from the Town. The Westport Library Association Investment Fund, Inc. meets the criteria of a component unit in that it is fiscally dependent on the Town.

The Westport Library Association Investment Fund, Inc. was established under Connecticut State Statutes to serve the Town of Westport. The Library is governed by a 20 member Board of Trustees. One-half of the trustees are appointed by Westport's Representative Town Meeting, and one-half are appointed by the Board. Trustees serve a term of four (4) years. The Library provides services to the Town of Westport and its surrounding community. These services relate to the purchase and distribution of educational and recreational materials to the public. It also serves nonresident borrowers through the state-funded Connecticut program. The Library is funded by the Town of Westport and private contributions. Financial information related to the Westport Library Association Investment Fund, Inc. is available at the Westport Library Association, Inc., 20 Jesup Road, Westport, CT 06880. The Westport Library Association Investment Fund, Inc. is reported within the component unit column in the government-wide financial statements.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund. Agency fund financial statements are on the accrual basis with no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, except for debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Property taxes when levied for, intergovernmental revenues when eligibility requirements are met, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the government.

The Town reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Sewer Operating Fund* accounts for the revenues collected by the Town and expenditures related thereto.

The *Municipal Improvements Phase II Fund* accounts for proceeds of borrowed funds to be used for capital expenditures.

Additionally, the Town reports the following fund types:

Internal Service Funds are used to account for the revenues and related expenses for the Town and Board of Education health self-insurance and worker's compensation insurance plans for employees of the Town and Board of Education.

Pension Trust Funds are used to account for the accumulation of resources to be used for retirement benefits, and include the Police, Fire, Public Works, Municipal Interim and Non-Union Funds.

Agency Funds are used to account for monies held as a custodian for outside groups and agencies.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and internal service fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Accounting estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued **June 30, 2006**

assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash equivalents

The Town classifies money market funds, MBIA class investments and treasury bills and certificates of deposit having original maturities of three months or less when purchased as cash equivalents.

Investments

Investments are stated at fair value, using quoted market prices. The majority of the Town's investments are in the General Fund and Pension Trust Fund. The Connecticut State Treasurer's Short-Term Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c through 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares.

The balance of the pooled fixed income investments were invested in a pool similar to a 2a-7. The fair value of the position in the pool is the same as the value of the pool shares. These investments are stated at amortized cost.

Property taxes

Property taxes are assessed as of October 1, levied on the following July 1, and are due in four installments, July 1, October 1, January 1 and April 1. Taxes less than \$100 are due in full on July 1. Motor vehicle taxes are due in one installment on July 1, and supplemental motor vehicle taxes are due in full January 1. Taxes become delinquent thirty days after the installment is due. Liens are filed by the last day of the fiscal year. An allowance based on historical collection experience is provided for uncollectible taxes.

Sewer assessments are levied by the Water Pollution Control Authority and assessed to the users as projects are completed. Assessments are due and payable as of September 1 following the levy, but may be paid in installments with interest over the life of the bond issue less one year, usually a nineteen year period, with the prevailing interest rate. All properties are liened until the assessment is paid in full.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Capital assets

In the government-wide financial statements, capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 for personal property and \$75,000 on all other with an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the Town is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40-50
Building improvements	20
Distribution and collection systems	50-100
Public domain infrastructure	50
System infrastructure	30
Machinery and equipment	5-20

In the governmental fund financial statements, capital assets are recorded as an expenditure when purchased and no depreciation expense is reported.

Compensated absences

Employees are paid by a prescribed formula for absences due to vacation or sickness. The obligation for vacation pay vests when earned. Unused sick leave may be accumulated for future absences in accordance with employee contracts and employment policies but does not vest. If an employee is retiring, limited accumulated unused sick leave is not paid but added to the credited service used to calculate pension benefits. The liability for the remainder of the accrued vacation earned is reported in the government-wide statements. In the governmental funds, the amounts are reported when paid or when payment is due.

Allowance for doubtful accounts

Accounts and notes receivable for the primary government are reported net of allowance of \$1,000,000 for doubtful accounts. The allowance for doubtful accounts represents those accounts which are deemed uncollectible based upon past collection history and the creditors' ability to pay.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, *Continued* June 30, 2006

Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pension plan accounting

Pension Trust Funds:

Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Governmental Funds:

The net pension obligation (asset), the cumulative difference between annual pension cost and the Town's contributions to the plan since 1986, is calculated on an actuarial basis consistent with the requirements of Governmental Accounting Standards Board Statement No. 27. Expenditures are recognized when they are paid or are expected to be paid with current available resources. The pension asset is recorded as a non-current asset in the government-wide financial statements. The pension obligation is recorded as a non-current liability in the government-wide financial statements.

Funding Policy:

The Town makes contributions at the discretion of management. These contributions have been substantially the amount recommended by the Town's actuaries.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as a reservation of fund balance as they do not constitute either expenditures or liabilities.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

In the Government-Wide Financial Statements, net assets are classified in the following categories:

Invested in Capital Assets, Net of Related Debt - This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduces this category.

Unrestricted Net Assets - This category represents the net assets of the Town, which are not restricted for any project or other purpose.

In the fund financial statements, fund balances of governmental funds are classified in three separate categories. The three categories, and their general meanings, are as follows:

Reserved fund balance – indicates that portion of fund equity which has been legally segregated for specific purposes or not available for appropriation.

Unreserved/designated fund balance – indicates that portion of fund equity for which the Town has made tentative plans.

Unreserved fund balance – indicates that portion of fund equity which is available for appropriation and expenditure in future periods, or if a deficit for which future funding will be required.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Note 2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds, and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$(182,009,270) difference are as follows:

Bonds payable	\$ (177,120,000)
Less: Deferred charge for issuance costs (to be amortized over life of debt)	744,106
Add: Issuance premium (to be amortized)	(1,829,926)
Accrued interest payable	(1,340,411)
Claims and judgments	(400,000)
Compensated absences	(1,658,039)
Net pension obligation	<u>(405,000)</u>
Net adjustment to reduce fund balance – total governmental funds to arrive at net assets – governmental activities	<u><u>\$ (182,009,270)</u></u>

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances (deficits) and the governmental activities reported in government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances (deficits) includes a reconciliation between net changes in fund balances – total governmental funds, and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$30,377,708 difference are as follows:

Capital outlay	37,858,438
Depreciation expense	\$ (7,392,750)
Disposals of capital assets	<u>(87,980)</u>
Net adjustment to increase net changes in fund balances – total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ 30,377,708</u>

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds), provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$(1,435,000) difference are as follows:

Bond proceeds	\$ (11,705,000)
Principal repayments: General obligation debt	<u>10,270,000</u>
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u>\$ (1,435,000)</u>

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$882,601 difference are as follows:

Net change in compensated absences	\$	(40,542)
Net change in accrued interest		454,496
Net change in net pension obligation		(262,000)
Net change in net pension asset		150,000
Net change in claims and judgments		500,000
Amortization of bond discounts		(37,227)
Amortization of bond premium		<u>117,874</u>
Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$	<u><u>882,601</u></u>

Note 3. Budgets and Budgetary Accounting

General Fund

The Town's general budget policies in the General Fund and Sewer Operating Fund are as follows:

- A. On the first Tuesday in May, the Representative Town Meeting adopts the budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means to be utilized to finance them.
- B. The Board of Finance is authorized to transfer budgeted amounts between appropriations and can approve additional appropriations up to an aggregate of \$20,000 per year. Additional appropriations aggregating more than \$20,000 per fiscal year must be approved by the Representative Town Meeting.
- C. Formal budgetary integration is employed as a management control device during the year. The legal level of control (the level at which expenditures may not exceed appropriations) is at the department level.
- D. Budgeted amounts shown are as amended by a Representative Town Meeting or by the Board of Finance during the course of the year. Additional appropriations for the year ended June 30, 2006 aggregated approximately \$1,521,000 for the General Fund.
- E. All noncontinuing appropriations lapse at year-end.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

- F. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order, contract or other commitment is issued and, accordingly, encumbrances outstanding at year-end are reflected in budgetary reports as expenditures of the current year.
- G. A reconciliation of General Fund operations presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”) to the amounts presented on the budgetary basis is as follows:

	General Fund		Sewer Operating Fund
	Revenues and Transfers	Expenditures and Transfers	Expenditures and Transfers
Balance, GAAP basis	\$ 148,987,494	\$ 148,594,708	\$ 2,982,998
State Teachers' Retirement payments made by State Department of Education on behalf of the Town, not recognized for budgetary purposes	(4,991,000)	(4,991,000)	-
Unliquidated prior year encumbrances	143,340	143,340	16,234
Encumbrances:			
June 30, 2005	-	(1,037,919)	(235,049)
June 30, 2006	-	151,811	150,705
Continued in force:			
June 30, 2005	-	(2,876,423)	-
June 30, 2006	-	3,635,680	-
Balance, budgetary basis	<u>\$ 144,139,834</u>	<u>\$ 143,620,197</u>	<u>\$ 2,914,888</u>

- H. Classifications of certain revenues and expenditures under GAAP differ from classifications utilized for budgetary purposes.

Special revenue funds

The Town does not have legally adopted annual budgets for its special revenue funds, other than the Sewer Operating Fund. Budgets for the various special revenue funds that are utilized to account for specific grant programs are established in accordance with the requirements of the State or other grantor agencies. Such budgets are non-lapsing and may comprise more than one fiscal year.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Capital projects funds

Legal authorization for expenditures of the capital projects funds is provided by the related bond ordinances and/or intergovernmental grant agreements or Connecticut General Statutes. Capital appropriations do not lapse until completion of the applicable projects.

Note 4. Cash and investments

Deposits: The Town has a policy that deposits can include demand and savings accounts and certificates of deposits. The Town's policy for custodial credit risk follows the State of Connecticut requirements that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

Investments: The Operating and Working Capital funds are invested in accordance with the guidelines of the "Investment Policy" upon the direction of the Finance Director in the following short-term investments: (1) various certificates of deposit (C.D.) with Connecticut banks (prior to acquiring a C.D., the Finance Director requires prospective bank depositories to provide written evidence that the bank meets the collateral, risk based capital and other requirements of Qualified Public Depositories as defined in Connecticut General Statutes Section 36-382); (2) money market accounts; (3) U.S. Government Treasury Obligations; (4) Repurchase Agreements collateralized by U.S. Government Agency Obligations; (5) MBIA Class - an investment fund managed by MBIA Municipal Investors Service Corporation which, according to MBIA Class, invest only in: (a) high grade short-term federal securities and variable rate obligations backed by federal agencies having monthly or quarterly assets based on indices like the prime rate, LIBOR, or a combination of the two; and (b) very short-term, usually overnight, repurchase agreements secured by high quality collateral which is valued daily and fully delivered to the program's custodial bank to be held for the benefit of the pool's participants. Eligible investments for Connecticut municipalities are determined by C.G.S. Section 7-400 and 7-402.

Town funds not under the direct control of the Finance Director and Controller will be the responsibility of the director or head of that department until such time the funds are disbursed or transferred to the Office of the Finance Director. The director or head of the department has established written procedures for the control of these funds. In addition, the Town monitors the risk based capital ratios and collateral requirements of the qualified public depositories, as defined in C.G. S. Section 36-382.

The investments of each of the six Pension Trust funds is carried out by the "Investment Committee" (consisting of the Chair of the Board of Finance, the Finance Director, and a third person chosen by the two and approved by each pension board of the various funds). The Investment Committee makes investment decisions based on guidelines and investment policy established by the pension board of each of the pension funds.

The pension boards have adopted an investment policy to allocate fifty-five percent of fund assets to equities with the balance invested in fixed income securities and cash equivalents.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Interest Rate Risk: The Town does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, its practice is to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools. The Town's pension funds do have a policy to limit their exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, and monitoring the liquidity of the funds on an ongoing basis.

Concentrations: The Town's policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific issuer.

Custodial credit risk:

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2006 \$37,446,438 of the entity's bank balance of \$38,181,566 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Town and the pension funds do not have custodial credit risk policies for investments.

Interest rate risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the entity's debt type investments to this risk using the segmented time distribution model is as follows:

Type of Investment	Fair Value	Investment Maturities (in Years)			
		Less Than 1 Year	1-5 Years	6-10 Years	Over 10 Years
Pooled fixed income	\$ 639,314	\$ 639,314	\$ -	\$ -	\$ -
U.S. Government Agencies	32,941,365	23,759,530	6,781,520	2,400,315	-
U.S. Government Securities	36,812,192	5,636,221	23,847,699	6,616,666	711,606
Corporate Bonds	25,943,640	7,992,480	8,238,840	6,913,460	2,798,860
TOTAL	\$ 96,336,511	\$ 38,027,545	\$ 38,868,059	\$ 15,930,441	\$ 3,510,466

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the minimum rating as required for each debt type investment.

Average Rating	Corporate Bonds	U.S.	
		Government Agency	Pooled Fixed Income
AAA	\$ 3,867,960	\$ 32,941,365	\$ 44,421
AA	14,807,670	-	594,893
A	7,268,010	-	-
	\$ 25,943,640	\$ 32,941,365	\$ 639,314

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Note 5. Unearned Revenue/Deferred Revenue

Governmental funds and governmental activities report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue and deferred revenue reported in the governmental funds and governmental activities were as follows:

	Deferred Revenue	Unearned Revenue
General Fund:		
Taxes and accrued interest on delinquent property taxes	\$ 7,880,066	\$ -
School construction receivable	3,703,151	-
Parking tickets and other	236,942	-
Sewer Operating Fund:		
Taxes and accrued interest on delinquent sewer taxes	6,558,817	-
Nonmajor Funds:		
Grants	-	28,797
Railroad parking permits	-	392,756
Summer school tuition	-	567,805
	<u>\$ 18,378,976</u>	<u>\$ 989,358</u>

Note 6. Interfund Receivables, Payables and Transfers

As of June 30, 2006, interfund receivables and payables that resulted from various interfund transactions were as follows:

	Due From Other Funds	Due To Other Funds
Due From:		
General Fund	\$ 1,831,262	\$ 1,735,042
Sewer Operating Fund	-	1,489,178
Municipal Improvements Phase II Fund	1,195,902	-
Non-Major Governmental Funds	1,260,193	759,137
Proprietary Funds	-	304,000
Total	<u>\$ 4,287,357</u>	<u>\$ 4,287,357</u>

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers during the year ended June 30, 2006 were as follows:

	Transfers In			Totals
	General Fund	Sewer Operating Fund	Nonmajor and Other Funds	
Transfers out:				
General Fund	\$ -	\$ 281,629	\$ 1,100,000	\$ 1,381,629
Sewer Operating Fund	280,000	-	-	280,000
Municipal Improvements Fund Phase II Fund	6,124	-	-	6,124
Nonmajor and Other Funds	494,232	-	452,901	947,133
Total	\$ 780,356	\$ 281,629	\$ 1,552,901	\$ 2,614,886

Transfers are used to account for: (1) financing by the General Fund of programs accounted for in other funds in accordance with budgetary amortizations; (2) sewer assessments and sewer usage charges collected in special revenue funds appropriated to General Fund to offset debt service expenditures; and (3) the one-time transfer of various residual program balances to the General and Special Revenue Funds.

June 30, 2006

Note 8. Bond Anticipation Notes and Interim Financing

Bond anticipation note and interim financing transactions for the year ended June 30, 2006 were as follows:

Outstanding, July 1, 2005	\$ 2,500,000
New borrowings - interim financing	13,464,171
New borrowings - bond anticipation notes	750,000
Payments - bond anticipation notes	<u>(2,500,000)</u>
Outstanding, June 30, 2006	<u><u>\$ 14,214,171</u></u>

The bond anticipation notes were issued to provide short-term financing for the Municipal Improvement Fund Phase II. The bond anticipation note outstanding matures June 19, 2007 and bears interest at 3.5%. The interim financing amount represents Clean Water Fund notes which were issued to provide financing for the Town's Water Pollution Control Facility projects accounted for in the Municipal Improvement Fund Phase II.

Note 9. Long-Term Obligations

Long-term liability activity for the year ended June 30, 2006 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due Within One Year
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 175,685,000	\$ 11,705,000	\$ 10,270,000	\$ 177,120,000	\$ 10,545,000
Add deferred amounts:

School bond reimbursements

The State of Connecticut reimburses the Town for eligible school bond principal and interest costs. The amount of reimbursement for the year ended June 30, 2006 was approximately

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

\$487,236. Additional reimbursements of principal and interest aggregating approximately \$4,822,551 are expected to be received through the bonds' maturity dates.

Debt limitation

The Town's statement of debt limitation under Connecticut General Statutes, Section 7-374(b) as of June 30, 2006 is as follows:

Total tax collections (including interest and lien fees and net of refunds and adjustments) for the year ended June 30, 2006	\$ 127,767,157
Reimbursement for revenue loss:	
Tax relief for elderly	<u>2,666</u>
Base	<u><u>\$ 127,769,823</u></u>

The Connecticut General Statutes provide that authorized debt of the Town shall not exceed seven times the above base cash receipts, or \$894,388,761, nor shall the total authorized particular purpose debt exceed the individual debt limitations reflected in the table below:

	General Purpose	Schools	Sewers	Urban Renewal	Pension Deficit
Debt limitation:

Note 10. Commitments and Contingencies

Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

Lawsuits

Various litigation, principally involving claims for personal injury and contested tax assessment, is pending against the Town.

For certain cases, where it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated, a loss contingency has been accrued for in the government-wide statement of approximately \$400,000. Based upon the advice of the Town Counsel, management believes that the ultimate resolution of these matters will not have a material adverse effect on the financial statements of the Town.

Municipal Solid Waste Service Agreement

The Town has entered into a municipal solid waste service agreement, as amended (the "Service Agreement") with the Connecticut Resources Recovery Authority (the "Authority") pursuant to which it participates with seventeen other Connecticut municipalities (the eighteen constituting the "Contracting Municipalities"), in the Greater Bridgeport Resources Recovery System (the "System").

Under the Service Agreement, the Town is required to deliver, or cause to be delivered, to the System solid waste generated within its boundaries up to its minimum commitment of 26,000 tons per year and to pay a uniform per ton disposal service payment (the "Service Payment"). The current fee is \$66 per ton and a fixed monthly charge of approximately \$17,333. The aggregate minimum commitment of the eighteen Contracting Municipalities is 400,000 tons per year. The Town's Service Payment commitment is a "put-or-pay" commitment, in that if the aggregate minimum commitment of the Contracting Municipalities is not met by the total deliveries of all the Contracting Municipalities in any year, the Town must pay the Service Payment for its proportionate share of the shortfall of the aggregate minimum commitment (unless it delivered its full portion).

Service Payments shall be payable so long as the System is accepting solid waste delivered by or on behalf of the Town, whether or not such solid waste is processed at the facility. The Town has pledged its full faith and credit to the payment of Service Payments and has also agreed to

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

enforce or levy and collect all taxes, cost sharing or other assessments or charges and take all such other action as may be necessary to provide for the payment of the Service Payments.

If any Contracting Municipality shall default in the payment of any service payments, the other Contracting Municipalities shall pay their share of the amounts unpaid by the nonpaying Contracting Municipality.

Note 11. Employee Retirement Plans

Plan Description

The Town maintains five contributory pension plans covering substantially all full-time employees and noncertified Board of Education employees. The five pension plans are single-employer contributory defined benefit plans which are part of the Town's financial reporting entity and are accounted for in five pension trust funds: police, fire, public works, municipal interim, and non-union. Stand-alone financial statements are not available. The certified faculty and administrative personnel of the Board of Education participate in a contributory retirement plan administered by the State Teachers' Retirement Board. The Town does not contribute to this plan.

As of July 1, 2005 (the date of the most recent valuation for all plans), the Plan's membership consisted of:

	Police	Fire	Public Works	Municipal Interim	Non-Union
Active	67	55	34	367	83
Terminated-vested	-	-	-	9	4
Retired	60	50	24	201	49
Total	127	105	58	577	136

Police and Fire Pension Plans

All regular employees of the police and fire departments are eligible to participate in the plans from their date of hire. They are fully vested and may retire after 20 years of service. The retirement benefit is calculated at 2 ½% of the final average compensation multiplied by the years of credited services to a maximum of 32 ½ years for fire and police. The maximum benefit is 81.25% of the final average compensation. Final average compensation is equal to the last 12 months' salary plus college credits, stand by, weapons allowance and hardship pay. Overtime is excluded from the calculation. Members are required to contribute 9% of their annual compensation.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Public Works Pension Plan

All members of the Public Works Union are eligible to participate in the plan upon employment. They are vested after 10 years of service. Participants hired prior to January 1, 1973 may retire after 25 years of service. Participants hired on or after January 1, 1973 may retire when the participant's age and years of credited service equal 75 with a minimum of age 55 and a minimum of 10 years of service. The retirement benefit is calculated at 2 ½% of the average of the participant's final 12 months of compensation, multiplied by the years of service to a maximum of 32 ½ years. Participants in the Plan hired before July 1, 1999 contribute 9% of their annual salary to the pension plan. Participants hired on or after July 1, 1999 contribute 10% of salary to the plan.

Municipal Interim Plan

Employees that belong to the Westport Municipal Union and the Westport Paraprofessionals Union are covered under the Municipal Interim Plan. Full vesting for the Plan occurs after 10 years of continuous service, or 15 years of non-continuous service. An employee may retire upon reaching age 55 if fully vested; or upon completion of 25 years of credited service without age requirement. The pension benefit for the Municipal Interim Plan is equal to 2% of final average compensation multiplied by the number of years for credited service for the first 20 years of service and 2.25% for service thereafter, to a maximum of 33 years. For full-time employees of the cafeteria, monthly compensation benefit is equal to 1.1667% of the monthly average final compensation subject to Social Security tax plus 2% of such compensation not subject to Social Security tax times credited service to a maximum of 33 years, plus .1667% of the monthly average compensation subject to Social Security tax and 1% of such compensation not subject to Social Security tax times credited services in excess of 33 years.

Non-Union Plans

The Non-Union Plans are differentiated by Supervisory and Non-Supervisory.

Non-union non-supervisory employees participate in the Non-Union Non Supervisory Pension Plan. Full vesting for the Plan occurs after 10 years of continuous service for non-union non supervisory and after 5 years of continuous service for non-union supervisory participants, or 15 years of non-continuous service for all non union employees. An employee may retire upon reaching age 55 if fully vested; or upon completion of 25 years of credited service without age requirement. The pension benefit for the Non-Union Non Supervisory Plan is equal to 2.00% of final average compensation multiplied by the number of years for credited service for the first 20 years of service and 2.25% for service thereafter.

Non union supervisory employees participate in the Non-Union Supervisory Pension Plan. Full vesting for the Plan occurs after 5 years of continuous service, or 10 years of non-continuous service. An employee may retire upon reaching age 55 if fully vested; or upon completion of 25

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

years of credited service without age requirement. The pension benefit for the Non-Union Supervisory Plan is equal to 2.25% of final compensation multiplied by the number of years for credited service.

Average final compensation for all plans (Municipal Interim and Non-Union (2)) is defined as the greater of the compensation earned during the final 12 months or the calendar year in which the compensation was the highest. In no instance may the pension benefit exceed a certain percentage of final average compensation (69.25% for those in the Municipal Interim Plan, 100% for those in the Non-Union, Non Supervisory Plan and the Non Union Supervisory Plan). Employee contribution rates are as follows: 4.00% for all employees, except Municipal Interim Plan participants, whose rate is 3.25% and 4.00 % after January 1, 2007 and cafeteria workers, whose contribution is 2.25% of gross pay subject to Social Security tax, plus 5% of gross pay not subject to Social Security tax.

All pension plans have provisions for retirement with disability and death benefits. The Town is required to contribute the remaining amount necessary (net of employee contributions) to fund the pension plans based on an actuarially sound method. Benefits and employee contribution rates are set by the Town and the bargaining unit.

Annual Pension Cost and Net Pension Obligation (Asset)

The Town's annual pension cost and net pension obligation (asset) for the Plans for the year ended June 30, 2006 were as follows:

	Police	Fire	Public works	Municipal Interim	Non-Union
Annual required contribution	\$ -	\$ -	\$ -	\$ 167,000	\$ 452,000
Interest on net pension obligation (asset)	(50,000)	(38,000)	(22,000)	(7,000)	11,000

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

Connecticut State Teachers' Retirement System

The faculty and professional personnel of the Board of Education participate in a contributory defined benefit plan, established under Chapter 167a of the Connecticut General Statutes, which is administered by the Connecticut State Teachers' Retirement Board. A teacher is eligible to receive normal retirement benefits if he or she has attained age sixty and has accumulated twenty years of credited service in the public schools of Connecticut or has attained any age and has accumulated thirty-five years of credited service, at least twenty-five of which are service in the public schools of Connecticut. The financial statements of the Plan are available from the Connecticut State Teachers' Retirement Board, 21 Grand Street, Hartford, CT 06105.

Certain part-time and full-time certified teachers are eligible to participate in the plan and are required to contribute 7.25% of their annual earnings to the plan. The Town does not, and is not legally responsible to, contribute to the plan.

The State of Connecticut contributes based on actuarially determined amounts. The funding level was determined based on an actuarial valuation of the plan as a whole, which does not provide actuarial information on an individual city/town basis.

In addition, the Town has recognized revenues and expenditures for on-behalf payments for pension contributions paid directly to the Connecticut State Teachers' Retirement System by the State of Connecticut. Such on-behalf payments were approximately \$4,991,000 for the year ended June 30, 2006.

Note 12. Risk Management

The Town is exposed to various risks of loss including torts, theft, damage to, and destruction of assets, errors and omissions, injuries to employees, employee health, natural disaster, public official liability and police professional liability. The Town generally obtains commercial insurance for these risks, but has chosen to retain the risks for employee health and workers' compensation. The Town has established three self-insurance funds, one for Town employees, one for Board of Education employees, and one for Worker's Compensation. All funds are accounted for as internal service funds.

Town

Under the Town's current medical insurance policy, the plan covers all employee claims submitted with stop loss coverage for claims in excess of 120% of expected claim level, determined by Blue Cross/Blue Shield at the beginning of each contract. The Town also offers a Health Maintenance Organization (HMO) as an alternative to all employees with specific limits for maximum annual benefits and co-payments.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2006

The Town's approximate maximum exposure for the year ended June 30, 2006 was approximately \$4,362,000 of which approximately \$3,350,000 was paid.

The plan is funded by monthly contributions from the general fund.

Board of Education

Under the Board's current medical insurance policy, the plan coverages vary depending on the union agreements. The plan provides coverage for hospital, major medical and dental. The five unions covered are teachers; administrators and executive secretaries; custodians, maintenance and aides; cafeteria workers and nurses. Depending on the union, there are different coverages, maximum benefits, deductibles and required contributions to the plan. The Board of Education also offers HMOs as an alternative to all employees with specific limits for maximum benefits per year and co-payments. The Board of Education has entered into a modified minimum premium agreement with the Travelers Plan Administrators. Under the agreement, the maximum aggregate limit factor is 87% of the annual premiums paid. The 13% represents Travelers' administration and claim processing fee.

The Board of Education's approximate maximum exposure for the year ended June 30, 2006 was approximately \$12,270,000 of which approximately \$8,954,000 was paid.

The plan is funded monthly by Board of Education budget appropriations and employee contributions as required.

Under Public Act 89-342, health insurance for retired teachers, a subsidy equal to the equivalent flat dollar premium amount for Blue Cross/Blue Shield coverage, will be paid by the State directly to local school districts, which will apply the subsidy to reduce premium payments of the retired member/spouse covered by the local school district plan. The retired member/spouse is required to pay the difference directly to the local school district. The funding for the State Teachers' Retirement Board is provided by the members' 1% supplemental contributions, which, since July 1, 1989, have been directed to a dedicated health insurance fund. There is no cost to the Town.

Worker's Compensation

The Town currently is a member in Connecticut Interlocal Risk Management Agency (CIRMA), a public entity risk pool established for the purpose of administering an interlocal risk management program pursuant to the provisions of Connecticut General Statutes, for workers' compensation and employer liability coverage. CIRMA currently has 215 members in the workers' compensation pool. The Town pays an annual premium for its coverage. CIRMA is to be self-sustaining through members' premiums but reinsures in excess of \$1,000,000 for each

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

insured occurrence. Members may be subject to supplemental assessment in the event of deficiencies; however, potential assessments are limited pursuant to the by-laws.

Settled claims have not exceeded commercial coverage nor has coverage been materially reduced in any of the last three years.

The Town is self-insured for worker's compensation claims. The Town records expenses for its self-insurance claims in the General Fund. The Town recognizes a liability for worker's compensation claims payable and for claims incurred but not reported based on actuarial analysis of claim history and for other self-insured claims which are probable of loss based on a case-by-case review. The Town's maximum potential liability under this Plan is approximately \$913,000 for fiscal year 2006.

Claims transactions for the last two years for the Town's health and worker's compensation insurance and the Board of Education's medical insurance are as follows:

Fiscal Year Ended	Claims Payable July 1	Current Year		Claims Payable June 30
		Claims and Changes in Estimates	Claims Paid	
Town:				
2006	\$ 1,036,163	\$ 3,580,264	\$ 3,496,231	\$ 1,120,196
2005	\$ 720,388	\$ 4,120,667	\$ 3,804,892	\$ 1,036,163
Board of Education:				
2006	\$ 742,108	\$ 10,312,719	\$ 10,143,640	\$ 911,187
2005	\$ 809,162	\$ 8,940,362	\$ 9,007,416	\$ 742,108

Note 13. Other Post-Employment Benefits

In addition to providing pension benefits, the Town instituted a policy providing 50% to 60% of certain health care benefits for retired employees. Substantially all of the Town's employees may become eligible for those benefits, if they retire under a normal retirement or with disability. The cost of retiree health care is appropriated each year in the budget and amounted to approximately \$868,600 for the fiscal year ended June 30, 2006. The number of employees eligible to receive these benefits was 156.

The Town pays benefits under the Heart and Hypertension Act to three (3) retirees whose disabilities are claimed to be job related. Benefits are funded on a pay-as-you-go basis. There were approximately \$104,000 of payments made during the year ended June 30, 2006. These payments are in addition to the disability pension payments made from the Pension Fund.

TOWN OF WESTPORT, CONNECTICUT

NOTES TO FINANCIAL STATEMENTS, Continued
June 30, 2006

Note 14. Fund Deficits

The following funds had fund deficits as of June 30, 2006:

Municipal Improvements Fund Phase II	\$ 13,694,853
Educational Grants Fund	6,804
Educational Facilities Improvement Fund – Phase VII	9,646

The Town anticipates financing the deficits in the funds through authorized bond issues and grants.

Note 15. Pronouncements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2006 that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements:

- ◆ GASB Statement No. 43, “Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans,” issued April 2004, will be effective for the Town beginning with the year ended June 30, 2007. This Statement establishes uniform financial reporting standards for OPEB (other postemployment benefits) and supersedes the interim guidance included in Statement No. 26, “Financial Reporting for Postemployment Healthcare Plans Administered by Defined Benefit Pension Plans.”
- ◆ GASB Statement No. 45, “Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions,” issued June 2004, will be effective for the Town beginning with the year ending June 30, 2008. This Statement establishes standards for the measurement, recognition and display of other postemployment benefits, expenses and related liabilities or assets, note disclosures and, if applicable, required supplementary information in the financial reports.
- ◆ Additionally, the Governmental Accounting Standards Board issued Statement Number 48, “Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues,” in September 2006, which will be effective for the Town beginning with the year ending June 30, 2008. This Statement establishes accounting and financial reporting standards for transactions in which a government receives, or is entitled to, resources in exchange for future cash flows generated by collecting specific receivables or specific future revenues. It also provides disclosure requirements for a government that pledges or commits future cash flows from a specific revenue source. In addition, this Statement establishes accounting and financial reporting standards for intra-entity transfers of assets and future revenues.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Shellfish Commission Fund - is used to account for the revenues generated from the sale of licenses and for the expenditures as required by the State of Connecticut for maintaining shellfish beds.

Railroad Parking Reserve Fund- is used to account for the revenues transferred from the Railroad Parking Fund and expenditures as required by the State of Connecticut pursuant to a lease agreement between the Town of Westport and the Department of Transportation.

Railroad Parking Fund - is used to account for the revenues and expenditures related to the Railroad Parking operation.

Dog License Fund - is used to account for revenue from dog license fees and related expenditures.

State Aid for Town Highways Fund- is used to account for grant revenues from the State of Connecticut and expenditures allowable under the State Highway Grant program.

Heart and Hypertension Fund - is used to account for payment of claims relative to Heart and Hypertension law.

Youth Services Fund - is used to account for grant revenues from the State of Connecticut and expenditures related thereto.

Recreation Program Fund - is used to account for revenues collected to pay for various recreational activities.

Educational Grants Fund - is used to account for U.S. and Connecticut Department of Education grants relating to education that are administered by the Superintendent's office.

Adult Education Fund - is used to account for registration, textbook and grant revenues and related expenditures.

Summer School Fund - is used to account for registration and textbook revenues and related expenditures.

Cafeteria Fund - is used to account for the operations of the school cafeterias, including the receipt and expenditure of related federal and state funding.

Police Fund - is used to account for revenues related to police seizure and abandoned property programs.

Escrow Fund - is used to account for revenues transferred in for a specific purpose and expenditures directly related to transfers.

Insurance Reserve Fund - is used to account for revenues transferred from the General Fund used to pay deductibles for liability and property claims.

Capital Projects Funds

Capital projects funds are used to account for the acquisition of major capital facilities other than those financed by proprietary funds.

Real Property Fund - is used to account for revenues generated from the sale of surplus properties in the Town and expenditures to reacquire other real property.

Sewer Reserve Fund - is used to account for revenues transferred in from the Sewer Operating Fund. These revenues are generated through user fees and expenditures for renovations to existing sewers.

Educational Facilities Improvement Fund - is used to account for borrowed funds which are used to pay for educational facility improvements.

Educational Facilities Improvement - Fund Phase II – is used to account for borrowed funds which are used to pay for the second phase of educational facility improvements.

Educational Facilities Improvement - Fund Phase III – is used to account for borrowed funds which are used to pay for the third phase of educational facility improvements.

Educational Facilities Improvement - Fund Phase IV – is used to account for borrowed funds which are used to pay for the fourth phase of educational facility improvements.

Educational Facilities Improvement - Fund Phase V – is used to account for borrowed funds which are used to pay for the fifth phase of educational facility improvements.

Educational Facilities Improvement - Fund Phase VI – is used to account for borrowed funds which are used to pay for the sixth phase of educational facility improvements.

Educational Facilities Improvement - Fund Phase VII – is used to account for borrowed funds which are used to pay for the seventh phase of educational facility improvements.

Capital and Nonrecurring Fund - is used to account for various acquisitions, renovations and construction projects, as outlined in State of Connecticut statutes.

Debt Service Fund

The Debt Service Fund accounts for the payment of principal and interest on long-term debt of the Town.

Permanent Funds

Mary A. Bedford Trust Fund – is used to account for a donation to support the Board of Education.

E.A. Nash Trust Fund – is used to account for a donation to support welfare payments.

Internal Service Funds

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for financing of goods or services provided by one department or agency to other departments or agencies of the Town on a cost reimbursement basis. The Town has three such funds.

Town Health Insurance Fund - is used to account for the revenues and related expenses for the health self-insurance plan for employees of the Town.

Worker's Compensation Fund – is used to account for the revenues and related expenses for worker's compensation for employees of the Town.

Board of Education Health Insurance Fund - is used to account for the revenues and related expenses for the health self-insurance plan for employees of the Board of Education.

Statistical Section

Statistical Section

This part of the Town of Westport, Connecticut’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the government’s financial performance and well-being have changed over time. 97

Revenue Capacity

These schedules contain information to help the reader assess the government’s most significant local revenue source, the property tax. 106

Debt Capacity

These schedules present information to help the reader assess the affordability of the government’s current levels of outstanding debt and the government’s ability to issue additional debt in the future. 114

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government’s financial activities take place. 122

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial report relates to the services the government provides and the activities it performs. 126
